

Managing Hybrid Projects Using GPMM

(GPMM)

Virtual course 16 hours (4*4 hours)
In person 24 hours / 3 days
16/24 PDUs

(Distributed as: 20 Ways of working, 2 Power skills and 2 Business Acumen PDU)
(Distributed as: 12 Ways of working, 2 Power skills and 2 Business Acumen PDU)

AFTER THE COURSE YOU WILL

- ❖ Have better knowledge of the project and program work form and the importance of a common project culture.
- ❖ Be able to use GPMM in traditional, agile and hybrid projects and programs
- ❖ Be able to take responsibility for a project from initiation to conclusion, ensuing it will successfully meet the goals.

TARGET GROUP

- ❖ Project and Program Managers
- ❖ Product Owners and Managers
- ❖ Project support staff, administrators, planners, configuration managers etc.
- ❖ Team leaders and Team members
- ❖ Project Sponsors, Functional/Line Managers
- ❖ Program and Portfolio Managers
- ❖ Project Office (PMO) Managers and staff
- ❖ Anyone working or involved in projects

TRAINING METHODS

We apply a training method based on “learning by doing”, optimizing your learning by combining the trainer’s input with your own experience and active participation.

You will experience a course with a high energy level and lots of fun.

This course can be adapted to customized GPMM-based Project Management Models.

All companies and organizations need good project performance, leading to value creation and benefits thanks to new needed products, deliveries, and improvements, on time and within budget.

In this course you will learn how to successfully manage projects using the world-class project management methodology – GPMM (Greenlight Project Management Model), which supports agile- (value driven), traditional- (plan driven / structured) and hybrid project management.

Companies and organizations benefit from common ways of working to be more efficient and continuously achieve the best project performance.

GPMM can be used in all types of projects, Customer, Internal and Product development projects.

SUBJECTS

- ❖ GPMM overview – Project Management in a multi-project organization
- ❖ Roles and Responsibilities
- ❖ Project analysis – Defining the Project Goals, Value, Benefits Deliverables and Scope using Business Analysis
- ❖ Requirement Management
- ❖ The Project Organization considering different approaches; Plan driven, Value driven (agile) or Hybrid Project Management
- ❖ The Project processes and 10 + 1 knowledge areas, including Project Financial and Risk Management
- ❖ What to do during the project lifecycle, analysis, planning, execution, and closure
- ❖ Project Planning – step by step
- ❖ The Tollgate Decision Model
- ❖ Project Documentation
- ❖ Tailoring GPMM to your projects
- ❖ How to benefit from AI in Project Management
- ❖ Exercises, Case-study (a complete project), tests and role-plays

ABOUT GPMM

- ❖ GPMM is a general-purpose hybrid (plan and value driven/agile) project management model.
- ❖ GPMM is a key building block in GreenlightPM’s Project Management 3.0 framework for Business Driven Project Management
- ❖ GPMM complies with all relevant project management standards eg. the PMI® standards, Prince2, BABOK, PMDPro2, APMBOK, ISO, the Agile Manifesto and SAFe.
- ❖ GPMM can be turned into a fully customized model by altering the name, parts of the content and the look and feel.
